

NOURISHING TRIPHASIC

Cod.2188

Features

The three-phase formula deeply nourishes the skin and allows a quick and pleasant application in the shower. Its light texture in contact with water, it turns into a milky liquid that nourishes the skin.

Actives

- **Almond and macadamia oils:** to ensure high nourishing action.

Action

Its three-phase texture melts on the skin, helping to restore the hydrolipidic film of the epidermis, making it satin-like and velvety. Contrasts skin dryness.

Beautiful and practical product, allows to nourish the skin in the shower avoiding to apply a classic after-bath milk.

After drying, the epidermis will appear velvety and delicately scented.

Use

After having washed with the bubble bath, shake the product to mix carefully the three phases and apply it with wide gestures on the wet skin. Massage evenly and rinse slightly in the shower so that the product is not completely eliminated. If desired, nourishing Trephasic can be left on the skin without rinsing.

Use whenever you feel the need, can be applied daily.
