

CORSET CREAM – Antigravity Bust

Cod. 2606

Features

The formula of Corset Cream Antigravity Breast allows to maintain plasticity and tone, stimulating the production of the main supporting fibers.

Actives

- **Dynalift:** has a film-forming and smoothing action on the skin, thanks to the presence of tensor agents that give an immediate, lasting compacting and toning up results.

Action

The skin appears visibly more toned, elastic and stronger. Perfectly hydrated and compact, it finds again a pleasant smooth and silky appearance. Thanks to the presence of its active ingredients, it allows to maintain plasticity and tone, stimulating the production of the main supporting fibers. Its delicate texture is easily absorbed forming a light thin veil that counteracts sagging skin and prevents stretch marks.

To highlight and define the most feminine part of every woman.

Use

Apply the product on the affected area, with wide circular massages. At the moment of application, the skin must be perfectly dry.
