

## GEL SPORT ENERGY

---

Cod. 3003

### Features

The gel to enhance the benefits of the workout on the skin. It gives immediate freshness to the epidermis and enhances the toning and slimming effect.

### Actives

- **Olivine:** revitalizes the skin by increasing cellular respiration to keep it healthy and vital.
- **Karité butter:** moisturizing, emollient and regenerating properties of the skin barrier. It gives greater compactness and elasticity to the epidermis.
- **Green Coffee extract:** it acts in a targeted way against the accumulation of fat cells favoring their disposal
- **Coffeine extract:** it also has lipolytic properties and facilitates the excess liquids elimination
- **Argan Oil:** nutritive, antioxidant, emollient and elasticising properties.

### Action

The gel for pre and post sport activity that promotes an intense “fat-burning” action while giving a moisturizing and revitalizing effect on the tissues. Thanks to synergistic action of caffeine and green coffee, it stimulates lipolysis which guarantees fat cells reduction and enhances the toning and reducing effect. Used pre-sport ease the elimination of liquids and tones the epidermis, used after sports, hydrates, nourishes, refreshes and prolongs the anti-accumulation and drains stimulating microcirculation. The result is toned, fresh and elastic skin.

### Use

Apply the product on dry skin with wide circular movements. Its texture is quickly absorbed, giving an immediate feeling of freshness and hydration. Do not rinse.
