

WARM & COLD PROGRAM

Cod.2477

FIRST STEP: HOT EFFECT MASK

Cod. 2477 A

Features

A particular formula, with "HOT" effect, soft and mat, that covers the skin wrapping it with a creamy veil.

Actives

- **Green clay:** purifies the skin, making it soft and elastic.
- **Rice starch:** powerful anti-inflammatory, also suitable for sensitive skin.

Action

Its active mix allows to immediately open the pores and purify the skin in depth, freeing it from toxins and impurities. Its pleasant "warm effect", instantly gives a feeling of beneficial comfort. After rinsing, the skin is clean, soft and luminous, ready to receive the benefits of the next product.

Use

Apply a thick layer of mask on face and neck avoiding the area around eyes and lips.

The application provides a pleasant feeling of warmth that instantly frees the pores from impurities and toxins. Leave for 2-3 minutes, then rinse thoroughly. At the time of rinsing, the feeling of warmth becomes more apparent to completely disappear in a few minutes, the time to move on to the next step.

SECOND STEP: COLD EFFECT MASK

Cod. 2477 B

Features

A creamy, elastic texture that acts immediately thanks to its refreshing effect.

Actives

- **Allantoin:** it has moisturizing and soothing properties, with an effective skin's protection action.
- **Complex of peptides, amino acids and vitamin B:** regulates the sebaceous secretion, improves the structure of oily skin. It has an antibacterial effect.
- **Menthol:** it contains analgesic properties and also has a refreshing and decongestant effect.

Action

After the application of the "hot effect" mask, it ensures the skin the perfect transportation of the active ingredients to hydrate, regulate sebum secretion and decongest it.

The skin appears luminous, compact and uniform.

Use

Apply the product on dry skin, it gives an immediate pleasant refreshing sensation and improves the action of the warm mask, conveying moisturizing and soothing actives and closing the pores. Leave for 10-15 minutes, then emulsify and finally rinse thoroughly.

We recommend using WARM&COLD program once a week.
