

## CRYSTAL SUN STICK SPF 50

---

Cod. 3063

### Features

A totally innovative stick, suitable for all skin types. Its solid gel formula is quickly absorbed, without leaving trace, for a fast and effective protection. It acts as a shield against sun's rays, highlighting the tattoos, thanks to its transparent texture. It does not require massage and is not sticky.

### Actives

- **Vitamin E:** excellent antioxidant, fights free radicals, aging's cellular responsible, giving a smooth and silky skin.
- **Sphingoceryl:** promotes the reinforcing of skin barrier and improves the skin well-being. It also helps the structuring and repair of the micro-relief of the skin.
- **Without Octocrylene and silicones**

### Action

It ensures maximum protection from sunlight by counteracting the free radicals' action. Thanks to its transparent texture, it allows to show off any tattoos, providing the highest protection. It leaves the skin soft and delicately scented.

### Use

Apply before exposure to the sun on the most fragile areas such as cheekbones, foreheads, shoulders and areas that you want to protect. Renew the application every two hours and, in any case, after every bath.
