

## PURIFYING CHARCOAL GEL

---

Cod. 3005

### Features

A clear cleansing gel that contains coal microspheres for an effective purifying and regenerating action. Gently removes impurities, promoting cell renewal.

It gives a healthy, soft and velvety skin. This innovative texture guarantees a thorough cleansing.

### Active

- **Coal:** known for its regenerating and illuminating properties of the epidermis. It captures and eliminates impurities, regulates the sebum production and purifying the skin in depth
- **Zincidone:** an amino acid of vegetable origin with anti-sebum and antiseptic action, which limits the bacterial proliferation. Zinc helps reinforce the barrier skin function. Ideal for combination and oily skin.
- **Arginine:** has moisturizing and nourishing properties of the skin. Improves tone by counteracting skin aging.

### Action

A moisturizing gel ideal for all skin types, which thanks to coal microspheres presence, gently removes impurities and dead cells in excess, without altering the normal hydration level of the skin. An innovative product to cleanse and purify the skin while preserving its natural balance.

### Use

Apply the amount of product on wet face. Gently massage with large circular movements, its coal microspheres break in contact with the skin, ensuring a perfect and deep purifying action.
