

SUN GEL-OIL SPF 50

Cod. 1797

Features

A gel texture, which turns into oil in contact with the skin. Its light touch ensures high protection from UV rays, preserving the epidermis from harmful sun effects.

Actives

- **Vitamin E:** an excellent antioxidant, fights free radicals, cellular aging responsible, giving smooth and silky skin
- **Shea butter:** emollient, nourishing and moisturizing properties.
- **Sunscreens SPF 50:** effectively protect against UVA and UVB rays

Action

Hydrates, nourishes and soothes the skin from sunlight. It protects the epidermis thanks Sunscreen SPF 50. Its active ingredients mix helps to restructure the skin, maintaining the optimal hydration rate and making the skin particularly soft and smooth. In addition, its innovative gel-oil texture makes application pleasant.

Use

Apply generously on the body before sun exposure, insisting on the most sensitive areas. Massage with large gestures until completely absorbed. Its texture is quickly absorbed and non-greasy. Renew the application after each bath and in any case every two hours. Avoid exposure during hottest hours (between 12 and 16).
