

MAT FACE CREAM

Cod. 1678

A cream with light touch, but which gives an immediate mat effect to the face skin. Designed to not give up your beauty, even if hidden behind a mask.

90% NATURAL ORIGIN INGREDIENTS

MAT EFFECT

MAT FACE CREAM

Cod. 1678

Features

The face skin, covered by the mask for many day hours, can lead to a greater sebum production. It is therefore necessary to restore the normal balance with targeted products that counteract the shiny appearance and the imperfection and redness formation.

Actives

- **Peelmoist:** is a molecular film developed to gradually release the beneficial Papain properties, which stimulate natural exfoliation, hydrating and purifying the skin at the same time
- **Dry Flow PC:** has sebum-balancing action, which regulates the sebum production by contrasting the shiny skin effect
- **90% Natural origin ingredients**

Action

Has an immediate mat action, contrasting the shiny effect of mixed and oily skin. Provides the correct hydration degree and purifies the epidermis. The tests carried out on this innovative formula have found a degree hydration of up to +17%.

(Efficacy test available)

Use

Apply a product on a perfectly dry and clean face. Massage with large circular movements to allow greater cream penetration.
